NOTE.—Seven of these State associations are incorporated and ten of them receive annual appropriations from their respective States, ranging from \$500 to \$5,000. These allowances are used to defray the expenses of annual conventions and to publish the reports of proceedings. In other States such proceedings are published in connection with annual reports of the boards and departments of agriculture.

Several of the older organizations have published annual reports, and sets of these, which it is very difficult to now obtain, embrace much dairy information of a valuable and practical character. The same is true of the annual reports of the American Dairymen's Association (1866-80) and the Northwestern Dairymen's Association (1867-83); both of these organizations were disbanded because their field of operations had become occupied by the younger associations in the several States.
